

GCubed Internship Application

GCubed Inc. offers two very limited internship programs for highly qualified individuals, Corporate and Contract Internships. A Corporate Internship candidate will be given specific tasks related to Marketing, Operations, Finance, Business Development, or Human Resources departments within the organization. The Contract Internship program will give the chosen candidate the opportunity to get hands-on experience on-site at one of the government contracts we service.

High performing interns will have an opportunity to acquire an active security clearance, something that is crucial for work in the world of government contracting. Preference will be given to individuals with current IT certifications. Standard Form 86, the Questionnaire for National Security Positions, will need to be successfully filed by the selected candidate. This document is available online, please visit www.opm.gov/Forms/pdf_fill/SF86.pdf for review.

Application due dates will be announced through our website and social media platforms. Corporate Interns can apply year-round. Contract Interns can apply seasonally and for special projects.

It is required that you submit this application form and a current resume. Applicants will receive a message from our Corporate Management Team with directions on taking the required skills assessments. **Please submit application and resume to HR@gcubedinc.com.**

Please fill out all information below completely and legibly

Name		Address	
Primary Phone		Email
